

ALMA MATER STUDIORUM  
UNIVERSITÀ DI BOLOGNA

*The project 22NRM06 ADMIT has received funding from the European Partnership on Metrology, co-financed by the European Union's Horizon Europe Research and Innovation Programme and from by the Participating States*

# WP4

**Alessandro Mingotti**

DEPARTMENT OF ELECTRICAL, ELECTRONIC, AND INFORMATION  
ENGINEERING "GUGLIELMO MARCONI" - DEI

## WP4: Creating Impact

**Goal:** given that it is a pre-normative project, the ADMIT main outputs are aimed at developing standards for uptake by standardisation bodies.

### Task 4.1: Dissemination and communication

- Creation of a stakeholder committee
  - 12 members from 12 organizations (DSOs, TSOs, manufacturers, academics, etc.) from 8 different countries.
  - Email will be sent to collect interested participants.
  - E-newsletter periodically sent to stakeholders with the updates on the project.

## WP4: Creating Impact

**Goal:** given that it is a pre-normative project, the ADMIT main outputs are aimed at developing standards for uptake by standardisation bodies.

### Task 4.1: Dissemination and communication

- Project webpage
  - SUN is managing the creation of a dedicated webpage. It will contain news, reports, results, etc.
  - A shared repository will be selected to be used by all partners.

## WP4: Creating Impact

**Goal:** given that it is a pre-normative project, the ADMIT main outputs are aimed at developing standards for uptake by standardisation bodies.

### Task 4.1: Dissemination and communication

- Project Logo

## WP4: Creating Impact

**Goal:** given that it is a pre-normative project, the ADMIT main outputs are aimed at developing standards for uptake by standardisation bodies.

### Task 4.1: Dissemination and communication

- Presentation of 12 conference papers

- Conference on Precision Electromagnetic Measurements (CPEM), 2024, 2026.
- IEEE Applied Measurements for Power Systems (AMPS), 2023, 2024, 2025, 2026.
- International Measurement Confederation (IMEKO) World Congress 2024
- International Measurement Confederation (IMEKO) TC4 “Measurement of Electrical Quantities” Symposium 2023, 2025, 2026
- International Measurement Confederation (IMEKO) TC10 “Testing, Diagnostics & Inspection” Symposium 2023, 2025, 2026.
- International Conference and Exhibition on Electricity Distribution (CIRED), 2023, 2025.
- International Council for Large Electric Systems (CIGRÉ), 2024, 2026.
- International Conference on Harmonics and Quality of Power (ICHQP), 2024, 2026
- International Congress of Metrology (CIM) 2023, 2025.
- International Symposium on High Voltage Engineering (ISH) 2023, 2025.
- IEEE International Instrumentation and Measurement Technical Conference (I2MTC), 2023, 2024, 2025, 2026.

## WP4: Creating Impact

**Goal:** given that it is a pre-normative project, the ADMIT main outputs are aimed at developing standards for uptake by standardisation bodies.

### Task 4.1: Dissemination and communication

- Publication of 6 papers on open access journals
  - IEEE Transactions
  - MDPI
  - Acta Imeko
  - Elsevier
  - Etc.

## WP4: Creating Impact

**Goal:** given that it is a pre-normative project, the ADMIT main outputs are aimed at developing standards for uptake by standardisation bodies.

### Task 4.1: Dissemination and communication

- ADMIT presentation inside workshops
  - CIRED
  - CIM
  - CPEM
  - Etc.

## WP4: Creating Impact

**Goal:** given that it is a pre-normative project, the ADMIT main outputs are aimed at developing standards for uptake by standardisation bodies.

### Task 4.1: Dissemination and communication

- Creation of a poster flyer and poster
  - Collection of the logos from partners.
  - First poster version with the goal of the project.
  - Periodically updated.
  - Will be disseminated to be used by partners.

## WP4: Creating Impact

**Goal:** given that it is a pre-normative project, the ADMIT main outputs are aimed at developing standards for uptake by standardisation bodies.

### Task 4.1: Dissemination and communication

- Information on activities will be disseminated to standard bodies and committees.
  - A feedback will be asked.
  - TC38
  - IEC SC 77A WG9
  - TC85
  - CCEM
  - EURAMET
  - TC42
  - Etc.

## WP4: Creating Impact

**Goal:** given that it is a pre-normative project, the ADMIT main outputs are aimed at developing standards for uptake by standardisation bodies.

### Task 4.1: Dissemination and communication

- Training course for PhD students.
  - The Italian “Italo Gorini” PhD summer school.
  - Others to be found.

## WP4: Creating Impact

**Goal:** given that it is a pre-normative project, the ADMIT main outputs are aimed at developing standards for uptake by standardisation bodies.

### Task 4.1: Dissemination and communication

- Workshop for stakeholders
  - 3 during the entire project.
  - 1 already in Turin.
  - 1 mid-term workshop
  - 1 final workshop

## WP4: Creating Impact

### Task 4.2: Exploitation and uptake

This aim of this task is to implement a high impact strategy in terms of exploitation. The results obtained from every activity will be disseminated to the proper audience.

## WP4: Creating Impact

### TO ALL PARTNERS:

Anytime you:

- Publish a paper,
- Participate to a conference/event,
- Disseminate in any other way,

please, collect all the available information and send it to:
